

# PARENT & CHILD

## Montessori Infant & Toddler Classes

**2019-20 | THE GARDEN MONTESSORI**

895 LINDEN RD, PINEHURST

The first three years of life are the most fundamental in the development of human beings and their potential. Join us for this unique opportunity to delve into the principles of the Montessori philosophy that guide our work with the very young child. During this course, caregivers will engage in conversation about how to best support the ever-changing needs of the infant and toddler. You will explore, play, and interact with your child alongside the trained guide who will introduce materials that are not only captivating but stimulate language, emotional, social, and cognitive development.

The parent and child classes provide parents with an experience to engage with their infants or toddlers as they exercise their independence by exploring a specially prepared environment. These classes are designed to support parents in the important role as your child's first teacher. The role of the parent in this class is to observe, support, and encourage the natural development of your child.

The parent and child classes are facilitated by a certified Montessori teacher who serves as a guide and model for parents and children as they explore the environment, offering practical examples of how to follow through with learning experiences at home.

These classes will also deepen your understanding of Montessori philosophy and its application in the home setting. Through both interaction and observation, parents and caregivers gain valuable insight regarding their child's path of development. The class also serves as a forum for parents to share and exchange information with each other.

These classes give parents the gift of time to truly understand the wonder of their child's development and assimilate some of the Montessori principles into their lives.

We look forward to spending time with you and your child!
